TOWERS IN ALEXANDERPLATZ | 2017

urban ideas

1 _BARBICAN CENTRE INSPIRATION

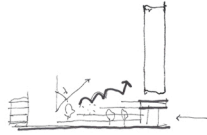

Towers inserted around closed blocks. Creation many and various plazas, gardens, ponds... at different levels. Making a more close environment for neighborhood activities. Shared spaces for locals and meeting point for citizens.

2 _TOWER + BASE

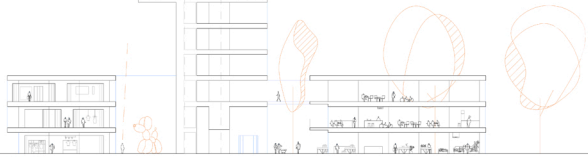

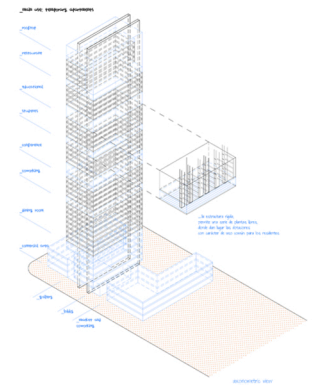

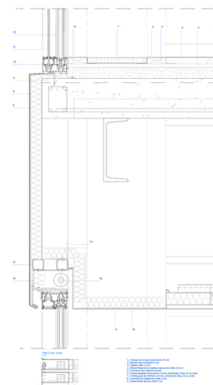

Tower enclose the area concentrating our effort of regeneration and redefinition on this zone.

The towers have on the lowest levels a more extended area for various and other activities, such as offices, gym, outdoor solariums (...)

3 _UNTER DEN LINDEN INSPIRATION

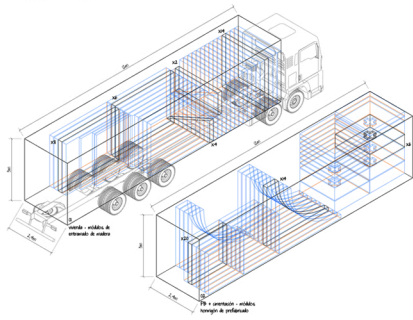

Walking space between two roads and trees. Where small stalls can be placed on demand.

homes for climate refugees

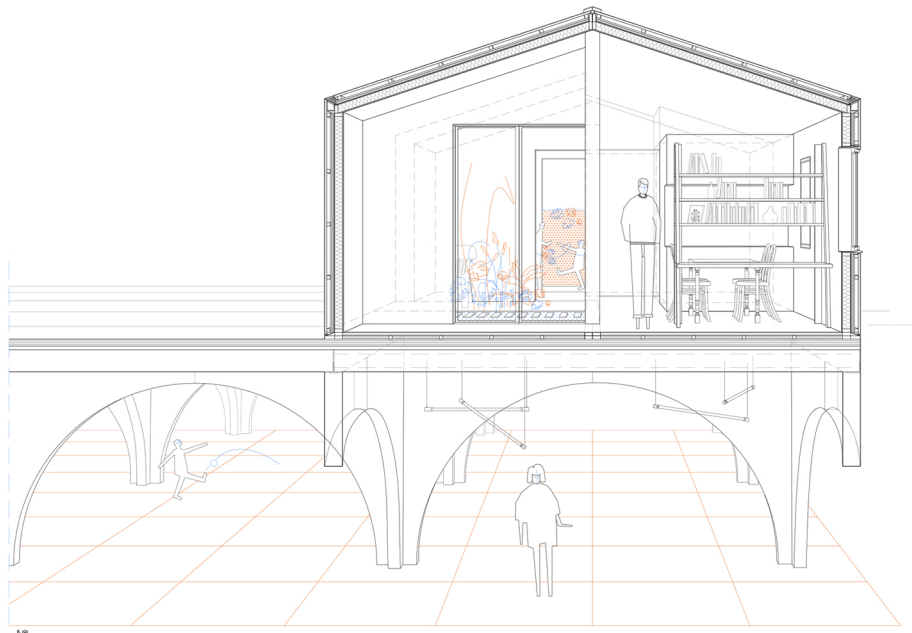

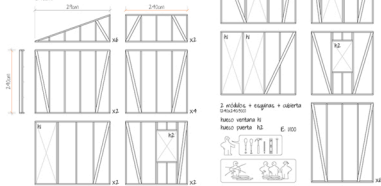

BROOKLYN | 2016
